I recently bought one of the *.hack* DVDS (“*.hack/SIGN*”, episodes 6 - 10). It came with a soundtrack CD, which I got around to listening to only an hour ago.

It’s pretty good. If you like *.hack*<sup>1</sup>, it’s worth the purchase. Has a mix of techno, orchestral, & ... whimsical jazzy(?) tunes. I especially like “limit”, which is hard, synthed techno, & Mimiru’s theme, which is what I was thinking when I wrote “whimiscal jazzy” in the previous sentence. Mimiru’s theme is really cute.

The CD has at least one orchestral track from the OVA. I think it’s Mai Menasi’s theme, though it’s not titled that way. It does not have the series theme sone for *.hack//SIGN* or any of the music from the game.

Not a “must have”, but pretty good.
